M.C.A Sep 2022 - Jun 2024
B.S.A College of Engineering and Technology, Mathura

B.C.A Aug 2019 - Jul 2022
Dharma Samaj College, Aligarh

Projects

Web Development : Job Junction portal

Developed the Job Junction Portal using the MERN stack. The platform features secure user authentication, dynamic job listings, profile management, and real-time notifications. Employers can post and manage jobs, while jobseekers can search, apply, and track applications, enhancing the recruitment process. This project improved the overall job search experience, offering a seamless and efficient interface for both jobseekers and employers.

Web Development: Multiplayer QUIZ GAME

Developed a multiplayer quiz game, allowing users to challenge friends and test their knowledge using HTML, CSS, JAVASCRIPT , BOOTSTRAP, SQL. The game has real-time Multiplayer functionality, a user-friendly interface, and a comprehensive question database.

Web Development : Random password Generator

Developed a versatile and secure Random Password Generator tool, featuring an intuitive user interface with responsive design for optimal usability across devices. The generator creates strong passwords with a mix of uppercase and lowercase letters, numbers, and symbols.

Graphic Designing

Make a Many social media Post and doing Video Editing.

Certificates

C programming

JAVA Programming

HTML, CSS, JAVASCRIPT

Internships

Web Developer Intern Jan 2025 - Present
PSS Techno Service Pvt. Ltd, Noida
